EGGER Marienmünster

EGGER Bevern

Zweifach stark
Zwei Standorte, ein Werk: Bevern und Marienmünster

In Bevern erzeugen wir aus Holzhackschnitzeln Holzfasern für die Dünn HDF Plattenherstellung, welche in Marienmünster weiterverarbeitet werden und hauptsächlich in der Möbelindustrie als Schrankrückwand oder Schubkastenboden ihren Einsatz finden.

Unsere Werke verbindet nicht nur die Arbeit, sondern auch ein gemeinsames Werteverständnis.

Unsere Produktvielfalt erstreckt sich von unifarbenen Oberflächen mit mattem oder glänzendem Erscheinungsbild über Fantasie- und Textildekoren bis hin zu Holzdekoren. Insgesamt produzieren wir über 500 verschiedene Dekorvarianten und erfüllen laufend neue Kundenwünsche. Zu unseren Kunden zählen namhafte Küchen- und Möbelhersteller aus der ganzen Welt, jedoch mit Schwerpunkt Europa. Höchste Qualitätsstandards, kurze Lieferzeiten und eine hohe Liefertreue sind die Basis für langjährige, vertrauensvolle Geschäftsbeziehungen.

Im gesamten Produktionsprozess achten wir auf einen verantwortungsbewussten Umgang mit unserem wesentlichen Rohstoff: Holz. Unsere Werke verfügen über einen eigenen Umweltbeauftragten, der sich mit Nachhaltigkeits- und Energiethemen auseinandersetzt. Seit 2014 sind wir nach der Umwelt-ISO-Norm 14001 zertifiziert – ein sichtbarer Beweis für unsere Bemühungen in diesem Bereich!

Das 1972 gegründete Werk Marienmünster wurde 1999 in die EGGER Gruppe eingegliedert. Seitdem wurde die Werksfläche ständig vergrößert und der Anlagenbestand kontinuierlich modernisiert. Mittlerweile sind wir mit 185 Mitarbeitern der größte Arbeitgeber im Raum Marienmünster.

Twice strong
Two locations, one plant: Bevern and Marienmünster

In Bevern, we produce wood fibre from wood chips for the production of Thin HDF Boards, which are processed further in Marienmünster and mainly used in the furniture industry as a cabinet back panel or drawer base.

Our plants are not only linked by work, but also by a common understanding of values.

Our product variety ranges from uni-coloured surfaces with a matt or glossy appearance to fantasy and textile decors through to woodgrain decors. In total, we produce more than 500 different decor variants and constantly fulfil new customer wishes. Our customers include well-known kitchen and furniture manufacturers from all over the world, but with a focus on Europe. Highest quality standards, short delivery times and high delivery reliability are the basis for many years of trust-based business relations.

Throughout the entire production process, we ensure the responsible handling of our essential raw material: wood. Our plants have their own environmental officer, who deals with sustainability and energy topics. Since 2014 we have been certified to the ISO 14001 environmental standard - a visible proof of our efforts in this area!

Founded in 1972, the Marienmünster plant was included in 1999 into the EGGER Group. Since then, the work surface has been steadily increased and the facilities continuously modernised. Meanwhile, with our 185 employees, we are the largest employer in the area of Marienmünster.
