EGGER PERFECTSENSE

Surfaces that speak to your senses

For years, our EGGER PerfectSense products have created a sense of comfort and elegance in interior design. The matt, matt-textured or high-gloss surfaces are finished with several layers of lacquer. This gives them a particularly appealing look and a pleasant feel.

With our new **PerfectSense Premium Ambiance** surface, we offer a unique innovation in our lacquered products segment. The lacquered surface, synchronised in look and feel, impresses with **partial gloss effects** that are perfectly matched to the respective decor. This sophisticated **matt-gloss effect is not only visible, but can also be felt**, allowing particularly authentic material reproductions to be realised.

With PerfectSense®
Ambiance, we make
the look tangible.

”

Matthias Wombacher
Head of Design and Decor Management

In addition, the matt PerfectSense surfaces have an anti-fingerprint property, which increases their functionality and significantly reduces the cleaning effort. Our EGGER PerfectSense products are available in matching decor and texture combinations. This enables the harmonious creation of sophisticated design concepts.

PerfectSense® Premium Ambiance (PA)

With PerfectSense Premium Ambiance (PA), we are expanding our PerfectSense portfolio with a lacquer surface synchronised in look and feel, whose partial gloss effects are perfectly matched to the respective decor image. This gives the stone reproductions an even more natural appearance and makes them look extremely authentic.

The predominantly matt areas of the lacquer surface have an anti-fingerprint property and make the products particularly easy to clean. The velvety, warm feel provides a pleasant sensation and makes PerfectSense Ambiance the ideal choice for use in kitchens, home furniture and shopfitting.

F129 PA
Beige Ambiance Granite

PerfectSense® Ambiance Decors

The PerfectSense Premium Ambiance surface is currently available in three authentic stone looks.

The elegant reproduction F199 PA Black Ambiance Marble impresses with its super-matt surface with golden marble veins, giving designs a particularly luxurious character. The two granite stone reproductions F128 PA Black Ambiance Granite and F129 PA Beige Ambiance Granite impress with their symbiosis of glossy areas and a velvety-matt surface. This combination creates a unique aesthetic and makes the decors look even more natural.

Due to the special manufacturing process, the Ambiance decors are only available with a high-quality lacquer surface and the PA PerfectSense Premium Ambiance texture. The PA texture is decor-specific, i.e. the texture is always synchronised with the respective decor. Furthermore, due to this unique production method, no protective film is applied to the surface.

PRODUCT INNOVATION

EGGER PerfectSense® Ambiance Lacquered MDF

PerfectSense Ambiance Lacquered MDF is used to create exclusive interior designs, even in public areas. The visually synchronised lacquer surface with partial gloss effect gives furniture a special sense of value and creates a harmonious room atmosphere. PerfectSense Ambiance Lacquered MDF is used to create exclusive interior designs and is ideal for use as furniture fronts and bodies.

→ [Go to the product on egger.com](#)

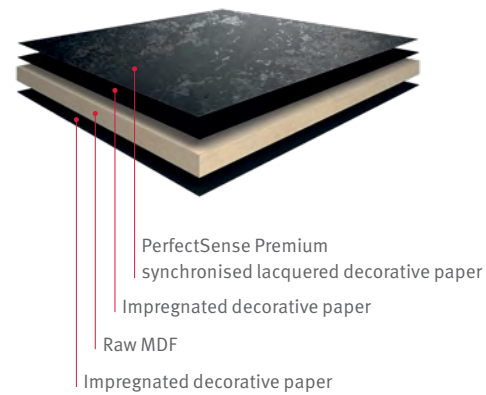

CHARACTERISTICS

- Synchronised lacquer surface texture
- Synchronised, predominantly supermatt lacquer surface with partial gloss effects
- Anti-fingerprint property in the matt areas
- Resistant to scratches
- Lightfast and stain-resistant

APPLICATIONS

- Fronts
- Furniture bodies
- Shelving
- Office furniture

PRODUCT INNOVATION

EGGER PerfectSense® Ambiance Laminates

PerfectSense Ambiance Laminates from EGGER harmonise a functional and attractive design. They are the ideal solution for horizontal and vertical surfaces with high stress, as well as for curved or rounded elements.

Like the lacquered boards, they also impress with a textured lacquer surface synchronised in look and feel, whose matt-gloss effect is perfectly matched to the respective decor. The mostly super-matt surface also has an anti-fingerprint property and feels pleasantly velvety-warm.

Harmonious furniture is created in combination with PerfectSense Lacquered MDF and PerfectSense ABS Edging.

→ [Go to the product on egger.com](#)

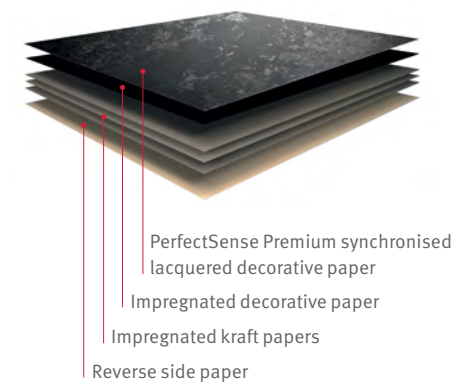

CHARACTERISTICS

- Synchronised, predominantly super-matt lacquer surface with partial gloss effects
- Anti-fingerprint property in the matt areas
- Resistant to abrasion, impact and scratches
- Water-resistant, lightfast, stain-resistant
- Postformable

APPLICATIONS

- Tabletops and worktops
- Rounded or curved furniture elements
- Furniture fronts
- Shelves and carcasses

Product structure

F129 PA

PRODUCT INNOVATION

EGGER PerfectSense® Ambiance Square Edged Worktops

CHARACTERISTICS

- PerfectSense ABS Edging on the front longitudinal edge
- Synchronised, predominantly super-matt lacquer surface with partial gloss effects
- Nominal thickness 19 mm
- Moisture-resistant glued particleboard core certified according to Japanese emission class F*** (JIS A 5908)

APPLICATIONS

- Kitchen worktops
- Reception desks
- Tabletops
- Wash basins
- Shelving

PerfectSense Ambiance worktops cater to the trend for modern, thin worktops.

The lacquer surface, synchronised in look and feel with partial gloss effects, gives granite and stone looks a particularly authentic appearance. In combination with the low nominal thickness of just 19 mm, this creates the impression of a natural stone worktop. The predominantly super-matt surface also has an anti-fingerprint property. The front longitudinal edge is edged with 1.5 mm thick ABS Edging. A temperature and steam resistant PUR hot-melt adhesive is used.

Available with matching decor and texture combinations with PerfectSense Ambiance Lacquered MDF, Laminates and ABS Edging.

EGGER PerfectSense® Matt Lacquered MDF

Our high-quality PerfectSense Matt Lacquered MDF is ideal for creating stylish kitchen fronts. The MDF core material ensures a particularly homogeneous surface for the super-matt lacquered boards, which are also suitable for horizontal applications, such as office furniture. Thanks to the innovative manufacturing process, this product not only offers high quality and anti-fingerprint properties, but also an exceptional look and feel.

Available in matching decor and texture combinations with PerfectSense Matt Laminates and ABS Edging.

[→ Go to the product on egger.com](#)

Product structure

PerfectSense® Premium Matt (PM)

The PerfectSense Premium Matt lacquer surface reflects the ongoing trend towards matt designs and gives interiors a modern, stylish character.

The surface is refined by our innovative lacquer system, giving it an attractive, velvety-warm look and feel. The anti-fingerprint property reduces visible fingerprints and makes cleaning easier, even in horizontal applications. The high durability of the PerfectSense Premium Matt lacquer surface also ensures a long service life.

EGGER products with this surface are particularly suitable for elegant kitchen designs and exclusive room concepts, in private and public interior design.

CHARACTERISTICS

- Super-matt, velvety-warm lacquer surface
- Anti-fingerprint property
- Homogeneous, coloured core for a through-coloured appearance with PerfectSense Matt Laminates Coloured Core

APPLICATIONS

- Tabletops and worktops
- Rounded or curved furniture elements
- Furniture fronts
- Door elements
- Wall cladding
- Shelves and carcasses
- PerfectSense Matt Laminates Coloured Core for mitred furniture, sales counters, shop fittings

◆ EGGER PerfectSense® Matt Laminates

◆ EGGER PerfectSense® Matt Laminates Coloured Core

Both PerfectSense Matt Laminate qualities impress with their appealing feel and, thanks to their lacquered surface, are excellently suited for use in the premium furniture segment. They give interior designs an exclusive and elegant character. Thanks to their abrasion, impact and scratch resistance, the laminates are ideally suited for use on both horizontal and vertical surfaces subject to high stress.

Available in matching decor and texture combinations with PerfectSense Matt Lacquered MDF (PM), PerfectSense Matt Lacquered Particleboards (TM) and ABS Edging (PM).

→ [Go to the product on egger.com](#)

- PerfectSense ABS Edging on the front longitudinal edge
- Nominal thickness 38 mm
- Moisture-resistant glued particleboard core certified according to Japanese emission class F**** (JIS A 5908)

APPLICATIONS

- Kitchen worktops
- Reception desks
- Tabletops
- Shelving

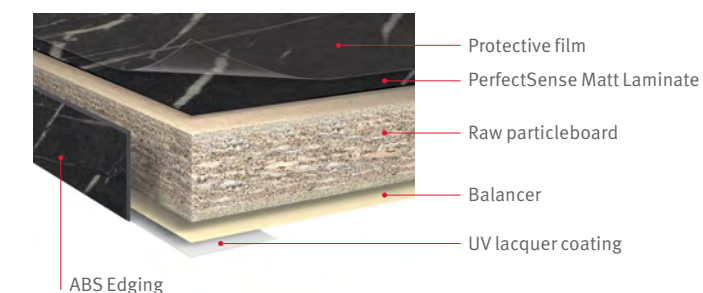

■ EGGER PerfectSense® Matt Square Edged Worktops

PerfectSense Matt worktops in 38 mm nominal thickness are characterised by their super-matt appearance, pleasant feel and anti-fingerprint property. The front longitudinal edge is edged with a 1.5 mm thick ABS Edging that perfectly matches the decor. A temperature and steam resistant PUR hot-melt adhesive is used. With this worktop, you can reflect the trend for matt surfaces.

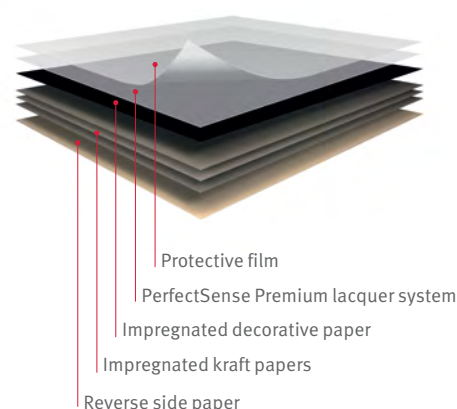

Available in matching decor and texture combinations with PerfectSense Matt Lacquered Boards, Laminates and ABS Edging.

Velvety-matt uni decors and authentic wood designs

- » PERFECTSENSE MATT (TM)
- » PERFECTSENSE OMNIPORE MATT (TM12)
- » PERFECTSENSE DEEPSKIN LINEAR MATT (TM22)
- » PERFECTSENSE FEELWOOD NATURE MATT (TM28)
- » PERFECTSENSE FEELWOOD RIFT MATT (TM37)

PerfectSense® Matt (TM)

The TM PerfectSense Matt lacquer surface gives uni decors a natural-looking, matt appearance with a pleasantly velvety-warm feel. Thanks to the low gloss level of the surface, the decors look extremely elegant and enable exclusive designs, both in private living spaces and in public areas.

In addition to their excellent visual and tactile characteristics, the TM lacquer surface is primarily distinguished by its anti-fingerprint property. This is particularly advantageous when used vertically, as recommended, as it significantly reduces the amount of cleaning required.

The 25 uni decors with TM PerfectSense Matt surface are available in matching decor within the material combination with the surface variant PM PerfectSense Premium Matt.

→ Go to the TM decors

All our shown and mentioned decors are reproductions.

PerfectSense® Omnipore Matt (TM12) & Deepskin Linear Matt (TM22)

The TM12 PerfectSense Omnipore Matt and TM22 PerfectSense Deepskin Linear Matt lacquer surfaces give the wood reproductions a natural, matt character. The textured surface not only provides an appealing look, but also a pleasantly velvety feel.

The anti-fingerprint property improves the product's characteristics, especially with dark woodgrain decors. Vertical use also opens up versatile designs and appealing compositions for furniture fronts and visible sides, both in private and public interior design.

→ Go to the TM12 decors

→ Go to the TM22 decors

PerfectSense® Feelwood Nature Matt (TM28) & Feelwood Rift Matt (TM37)

PerfectSense Feelwood surfaces combine a matt lacquer surface with a texture that is synchronised with the respective decor image. TM28 PerfectSense Feelwood Nature Matt and TM37 PerfectSense Feelwood Rift Matt perfect the natural wood character through the combination of synchronicity and a matt tactile look and feel.

Thanks to the low gloss level and the natural play of colours with more contrast and reflective nature, products with these surfaces appear particularly authentic. The anti-fingerprint property further improves the usage characteristics and reduces the cleaning effort, especially with dark decors.

PerfectSense Feelwood surfaces are suitable for all vertical applications.

→ [Go to the TM28 decors](#)

→ [Go to the TM37 decors](#)

CHARACTERISTICS

- Textured, matt and velvety-warm lacquer surface
- Anti-fingerprint property
- Recyclable particleboard core

APPLICATIONS

- Fronts
- Visible sides
- Furniture bodies
- Sliding doors

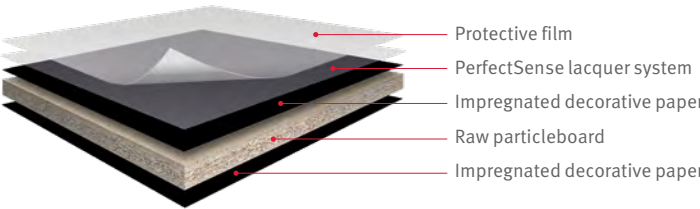

EGGER PerfectSense® Matt Lacquered Particleboards

PerfectSense Matt Lacquered Particleboards are the perfect choice for premium vertical applications, such as furniture fronts and bodies. Available in matt uni decors and authentic wood reproductions, they give interiors a particularly harmonious spatial feel. The matt, velvety-warm and textured surfaces on recyclable particleboard cores are convincing both in look and feel and, thanks to their anti-fingerprint property, are particularly easy to clean.

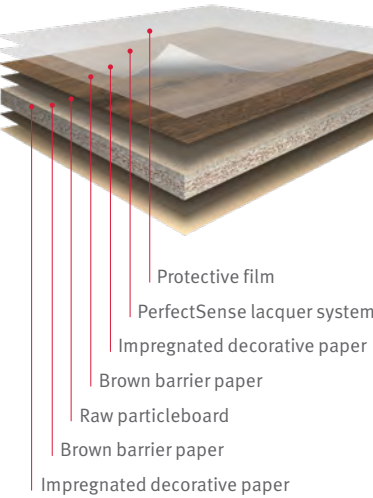

The following two core boards are available: EGGER PerfectSense Matt Lacquered Particleboards E1E05 TSCA P2 and EGGER PerfectSense Matt Lacquered Particleboards JP F0.3 (F****) / GB ENF MR. PerfectSense Matt Lacquered Particleboards are available in the textures TM, TM12, TM22, TM28 and TM37.

Product structure (TM28 / TM37)

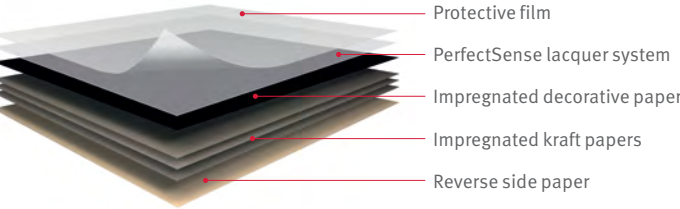

EGGER PerfectSense® Matt Laminates TM12 / TM22

PerfectSense Matt Laminates with the TM12 and TM22 textures are characterised by their matt lacquer surface with a textured feel and anti-fingerprint property. The wood reproductions, which look particularly natural, are used for vertical applications and, in combination with PerfectSense Lacquered Particleboards and ABS Edging, enable holistic designs.

EGGER PerfectSense® ABS Edging

CHARACTERISTICS

- Matching decor and texture combinations with EGGER PerfectSense Lacquered Boards, PerfectSense Laminates and PerfectSense ABS Edging
- Optimal edging solution for lacquered surfaces
- Board and edging material from a single source saves time and effort
- Good for fabricators

Whether matt, matt-textured, partially glossy or high-gloss: Matching our PerfectSense Lacquered Boards and Laminates, the edging is perfectly coordinated in terms of colour, texture, gloss level and surface resistance to create the ideal finish.

The components and manufacturing processes are coordinated for the PerfectSense Lacquered Boards, Laminates and Edging to create a uniform surface. For this reason, the product family impresses in terms of feel, appearance, gloss level and anti-fingerprint properties, and enables a harmonious overall appearance.

Space for **projects**

Muted Green kitchen

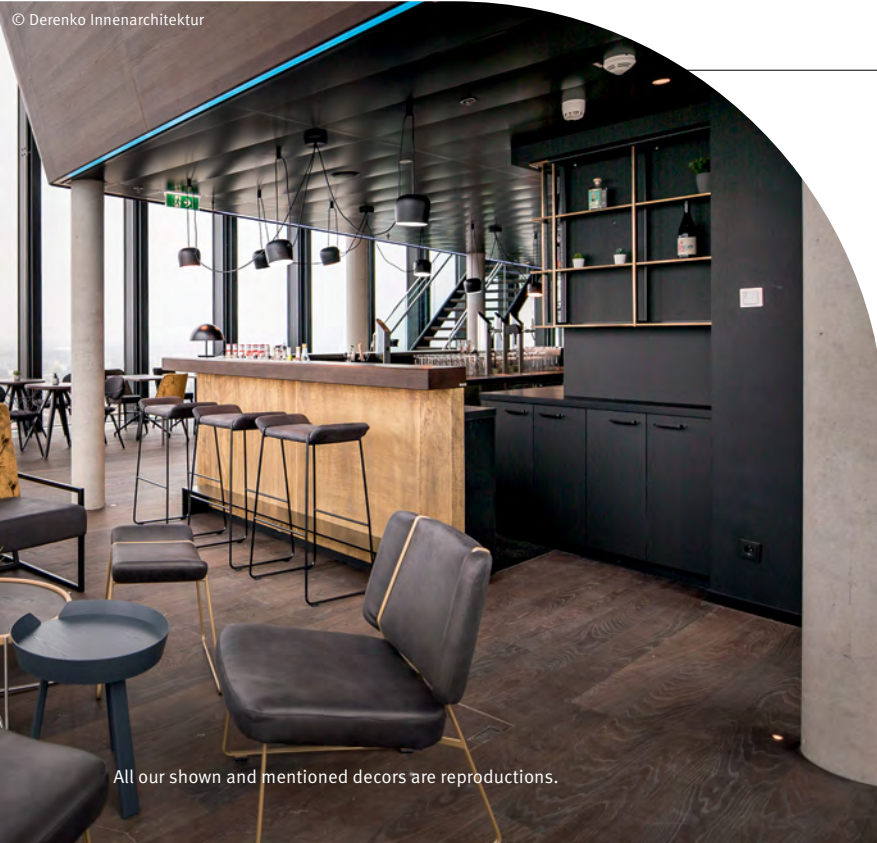

The client for this kitchen in Trutnov, Czech Republic, did not want a classic white kitchen and opted for U665 PM Stone Green. This green has a lot of grey tones and therefore a cooler, more technical and reserved effect, meaning that entire furniture elements or larger surfaces can also be designed with it, including – as in this case – the body and fronts of the kitchen island and kitchen unit, tall units and wall units. The lacquer surface **PM PerfectSense Premium Matt** gives the kitchen a certain elegance.

→ [Go to the case study](#)

K'Electric exhibition stand

For the exhibition stand at Light + Building 2024 in Frankfurt am Main (DE), the designers used several EGGER decors for K'Electric's presentation. The focus here was on an inviting atmosphere and a sense of value. A highlight of the exhibition stand: a K'Electric corporate logo made of moss. The targeted use of **EGGER PerfectSense Matt Lacquered Particleboards** in U999 TM28 Black emphasises the near-natural design and gives the corporate logo an unobtrusive background that makes it even more eye-catching.

→ [Go to the case study](#)

The city hotel with a smooth, urban look

The interior design of the arte hotel at Salzburg main train station (AT) is characterised by its subtle colour scheme and clear design language. The **EGGER PerfectSense Matt Lacquered MDF** in the decor U999 PM Black, the matching **EGGER PerfectSense Matt Laminate** for horizontal surfaces and the matching decor **EGGER PerfectSense ABS Edging** give the rooms a sophisticated touch without looking staged.

→ [Go to the case study](#)

PerfectSense® for exclusive car dealership interior design

The Wagenwerk car dealership was to become a unique space that combines a homely feel and a fascination with exceptional vehicles with a sophisticated, architecturally appealing and functional design. Crucial for the new look are the **EGGER PerfectSense Lacquered Boards: U999 PM Black PerfectSense Matt Lacquered MDF, U999 TM Black PerfectSense Matt Lacquered Particleboards, and U999 PG PerfectSense Gloss Lacquered MDF**. The combination of matt and high-gloss surfaces not only meets the design requirements but also perfectly showcases the high-quality sports cars.
