EGGER **DecoWall**

The innovation for
creative wall design.

Are you looking for a decorative wall panel for your interior design?

Choose EGGER DecoWall! The wood panels combine the stability and load-bearing capacity of a classic OSB board with a striking surface - entirely without sanding, painting or wallpapering. The straightforward assembly makes them ideal for both professionals and DIY enthusiasts.

Committed to nature

The responsible use of wood as a raw material is our top priority. Our DecoWall is low-emission, ensuring a clear environmental conscience and a pleasant living atmosphere. We do not use any plasticisers or PVC.

The wood used comes from 100 % verified legal and controlled sources. EGGER holds a valid PEFC Chain of Custody certificate and the DecoWall is marked as a certified product with PEFC 70 % (SGSCH-PEFC-COC-110069) on the sales documents.

EGGER DecoWall consists of 92 % wood. Wood absorbs CO₂ whilst growing and as a result, stores it. Our DecoWall binds more CO₂ than is released during its transport and processing. It therefore has a negative carbon footprint of -9.04 kg CO₂/m² (98 % of the material) and is 100 % recyclable.

Our sustainability indicators show what EGGER DecoWall contributes to the fulfilment of this promise.

More transparency:

-9.04 kg CO₂ / m²
*concerns 98 % of the material

100 % recyclable

92 % materials from renewable resources

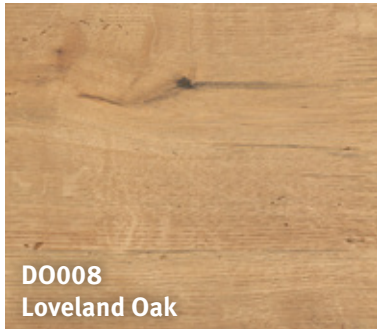

100 % verified legal wood origin
50 % of that certified

Setting accents naturally with wall panels.

- » Handy format (1,250 × 660 × 12 mm) for quick and easy installation
- » Stable support when mounting TVs or shelves
- » Fade resistant
- » Seamless installation thanks to the tongue and groove profile
- » Straightforward assembly and disassembly with standard screws for more flexibility

Trendy designs with **wood and concrete effects.**

Discover the diversity of our wall panels, available in seven decors: choose from elegant wood effects or opt for the modern concrete decor. Our DecoWall offers the perfect solution for individual design requirements.

D0007
Laxfield Oak

Laxfield Oak as an eye catcher

The DecoWall opens up new possibilities for interior design. The creative wall panels cleverly conceal untidy cables and skilfully showcase decorative accessories. The striking pore and block effect make Laxfield Oak a highlight in the living room.

D0009
Esbjerg Elm

An elegant room partition with Esbjerg Elm

The DecoWall Esbjerg Elm brings naturalness and warmth into the room. By using a partition wall between the bedroom and dressing room, it creates many possibilities for a personal touch. Lamps and shelves can be mounted directly, electrical installations are skilfully concealed. An uncomplicated alternative to conventional wall design - both functional and stylish.

D0003
Rovigo Concrete

Rovigo Concrete as a visual highlight with benefits

The home office has an eye catching wall panel in Rovigo Concrete. The DecoWall in front provides an opportunity for sophisticated indirect lighting. At the same time, monitors and shelves are held securely in place with a simple screw fastening and untidy cables disappear behind the wall panel.

DO002
Natural Annaba Oak

A load-bearing role for the Natural Annaba Oak

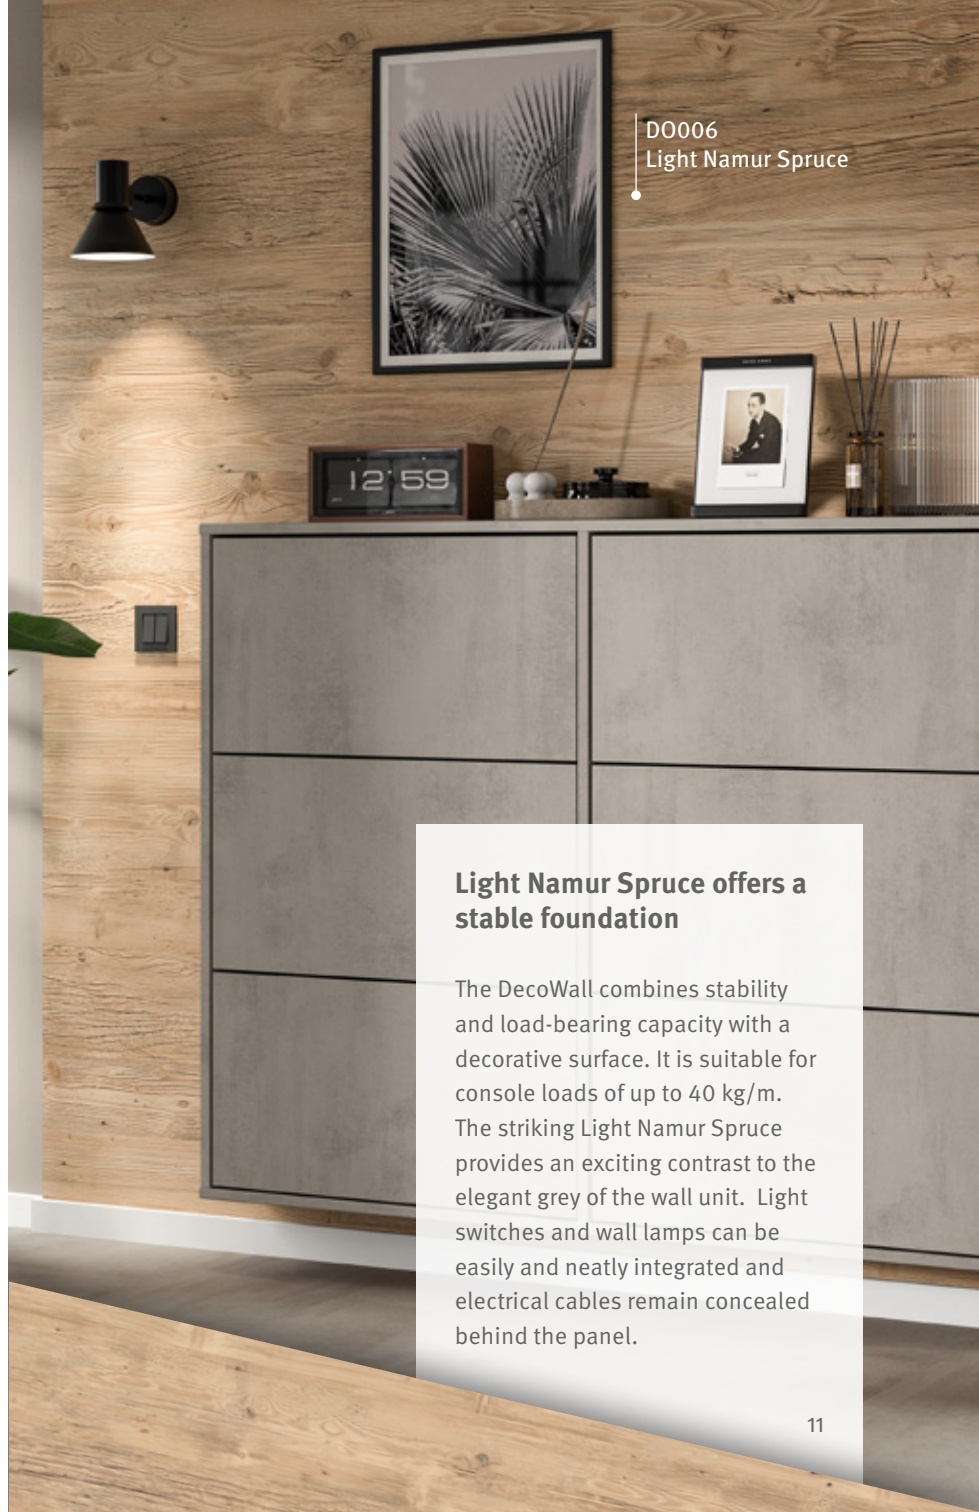

Natural Annaba Oak brings nature into the home. Console loads such as planters can be screwed directly into the DecoWall. The vintage look of the decorative panel instantly becomes the perfect frame for the hanging garden.

Loveland Oak as striking wall cladding in the shop

The DecoWall Loveland Oak offers a robust yet stylish wall design - as well as for stores and shops. It can be replaced quickly, carries loads reliably and conceals cables - for a practical and aesthetic solution that adapts perfectly to a wide range of requirements. The oak decor in a warm honey colour creates a pleasant atmosphere.

Light Namur Spruce

Light Namur Spruce offers a stable foundation

The DecoWall combines stability and load-bearing capacity with a decorative surface. It is suitable for console loads of up to 40 kg/m. The striking Light Namur Spruce provides an exciting contrast to the elegant grey of the wall unit. Light switches and wall lamps can be easily and neatly integrated and electrical cables remain concealed behind the panel.

Easy to apply for quick effects.

Each package contains **2.48 m²**,
3 boards in the format 1,250 × 660 × 12 mm.

1

With the right tools, the EGGER DecoWall can be installed in just a short time. Simply place the substructure, ...

2

... if needed cut the DecoWall to size, interlock the tongue and groove profile, align and ...

3

... mount and fasten.
