# Laminates in Door Sizes

EGGER Laminates in Door Sizes combine functionality with attractive design. They are the **ideal solution for the decorative design of interior doors**, e.g. in hotels, offices, hospitals, care facilities, schools, public buildings and ship interiors. Laminates can be bonded to a wide variety of materials such as raw chipboard, MDF or lightweight boards.

## All in one click

The product specifications are based on tests carried out in accordance with standard EN 438. Further details can be found online in the technical data sheets.

## Laminate advantages at a glance

Wear resistant

Lightfast

Resistant to many cleaning products and chemicals

Impact and scratch resistant

Moisture resistant

Antibacterial surface property according to ISO 22196 (= JIS Z 2801)

Hygienic

Resistant to stains

Available in decor match with other wood-based materials for interior fittings

## Economical, versatile and quickly available

EGGER Laminates are available in three door formats from stock and in quantities of one. White tones and uni colours are also available in the 2,350 × 1,310 mm format.

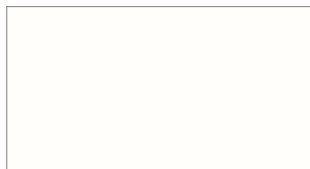

**This means that doors can be produced at an optimised size and economically.** Other formats and Flammex low flammability laminates are available to order from a minimum quantity of 260 m<sup>2</sup>.

## Uniquely versatile

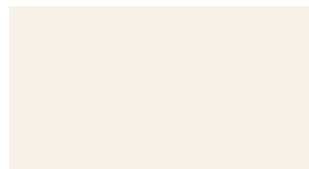

White decors and uni colours are timeless classics for doors. Harmoniously matched to the window frames, refined with attractive textures or matt anti-fingerprint surfaces or in a dyed-through look, these laminate decors add value to doors.

# Authentic and resistant

Doors with a wood appearance can be created particularly economically with laminates. The surface of the wood reproductions does not need to be lacquered and is easy to clean. Thanks to the reproducibility and lightfastness, doors can be added or renewed more easily.

## Space for transparency and responsibility.

We think of active climate protection as our duty. We are making extensive investments to make the best possible use of the valuable resource wood, such as expanding our own recycling collection centres. Our efforts have a common goal: to responsibly manufacture products for our customers.

Focus on product transparency.

[to.egger.link/epd](https://to.egger.link/epd)

We prioritise the responsible use of the valuable resource wood. With externally verified environmental product declarations, we make the environmental impact of our products easy to determine and highlight our promise: More from wood.
