Our edging

There are no compromises with EGGER Edging

Seamless furniture or accented designs are created by coordinating the decorative board and edging in terms of colour, texture and gloss level. The large selection of edging in the Decorative Collection 26+ offers solutions for varied design wishes – whether in the same colour and decor or contrasting.

EGGER has the largest range of edging available on the market.

YOUR BENEFITS

- EGGER Edging is available in matching decor and texture for all EGGER products, such as decorative particleboard, laminates, worktops and the PerfectSense product family.
- For a harmonious overall look, decors, textures and gloss levels are uniform across all products.
- EGGER Edging is available from one roll in a wide range of thicknesses and widths in almost 3,000 variants.
- The edging surface of uni and white colours is lacquered. The additional layer of lacquer ensures greater wear resistance and a harmonised gloss level.
- EGGER Edging is stored in three of our plants for short delivery routes.

EGGER ABS Edging

ABS Edging is used for edging coated wood-based materials such as particleboard, MDF and lightweight boards. It offers the right finish for decorative coatings. ABS Edging is available in a wide range of widths and thicknesses. In terms of decor, texture and gloss level, it is matched to the EGGER decors and products.

YOUR BENEFITS

- Available in matching decors and textures
- Look and feel matched to the respective board decor and its texture
- Board and edging from a single source saves time and effort
- Large selection of thicknesses and widths
- Available from stock from one roll

The PerfectSense® textures

PM*
PerfectSense Premium Matt

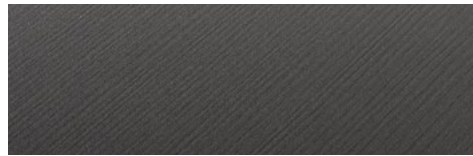

* Edging that matches the TM texture is available in the PM texture with the same decor

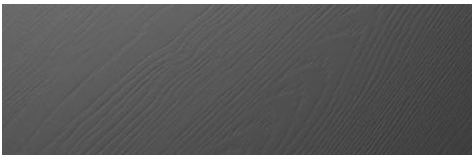

PG
PerfectSense Premium Gloss

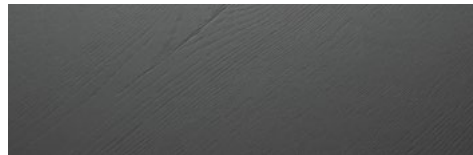

TM12
PerfectSense Omnipore Matt

TM22
PerfectSense Deepskin Linear Matt

TM28
PerfectSense Feelwood Nature Matt

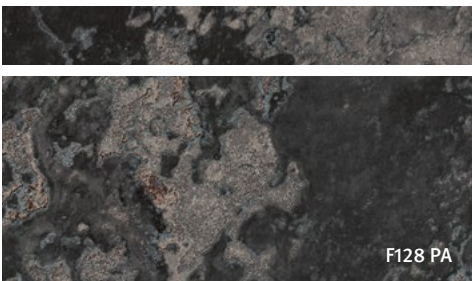

TM37
PerfectSense Feelwood Rift Matt

The components and manufacturing processes for the PerfectSense® lacquered boards, laminates and edging are coordinated with each other for a uniform surface. For this reason, the product family is impressive in terms of look, feel, gloss level and anti-fingerprint properties, creating a harmonious overall appearance.

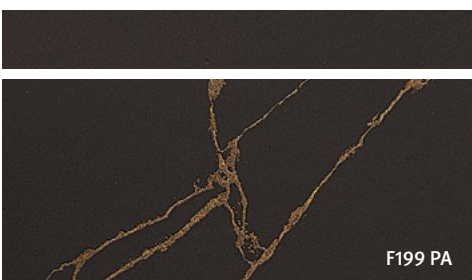

EGGER PerfectSense® Ambiance

F129 PA

F128 PA

F199 PA

With PerfectSense Ambiance, we present the latest innovation in our PerfectSense product family. This modern surface solution is characterized by a fascinating matt-gloss effect, which is enhanced by synchronous texture depths that invite exploration both visually and haptically.

Texture and colour variants to suit
your project.

EGGER Accent Edging

More than ever, the combination of different materials is at the core of furniture design.

The EGGER ABS and PMMA Accent Edging in the Decorative Collection 26+ allows you to obtain the most amazing design effects.

YOUR BENEFITS

- A combination of various material reproductions
- Realisation of design trends
- Skilful accent setting

Accent edging in combination with uni colours or wood and material reproductions enables a variety of creative combinations.

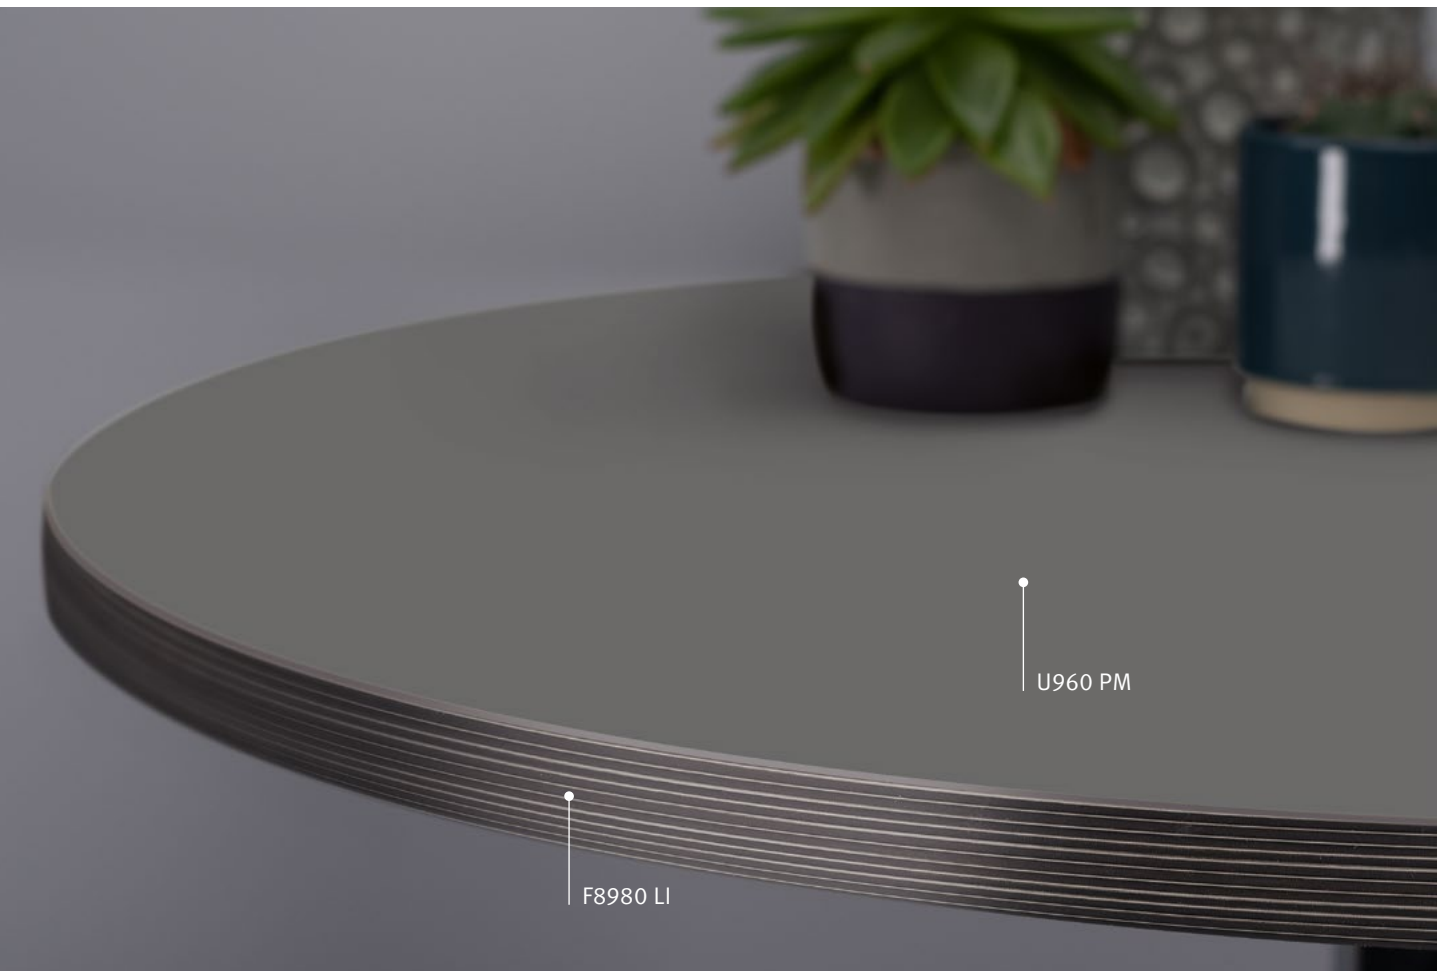

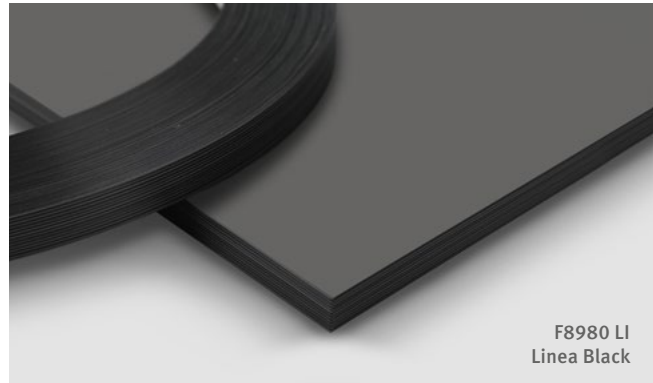

H8916 ST36

EGGER PMMA Accent Edging

Linea

This edging variant sets a strong graphic accent on many uni decors, wood and material reproductions. It harmonises particularly well with aluminium, black or dark woods. Its linear texture also creates a haptic effect.

Dimensions

Width (mm)	23
Thickness (mm)	1.0
lm/roll	75 m

PMMA Accent Edging Doppia

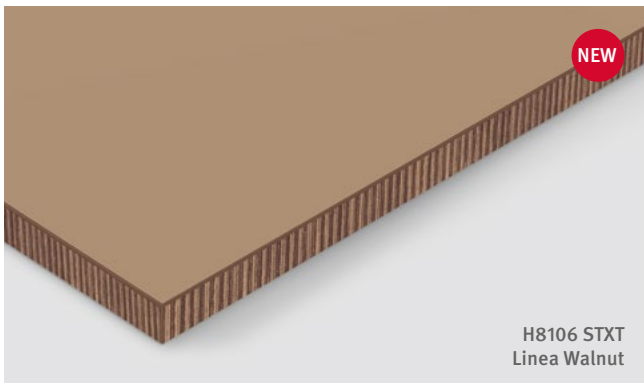

These turn a piece of furniture into a design element in the room. Together with the PerfectSense Matt or Gloss surfaces, this accent edging creates the visual effect of real glass.

EGGER ABS Accent Edging

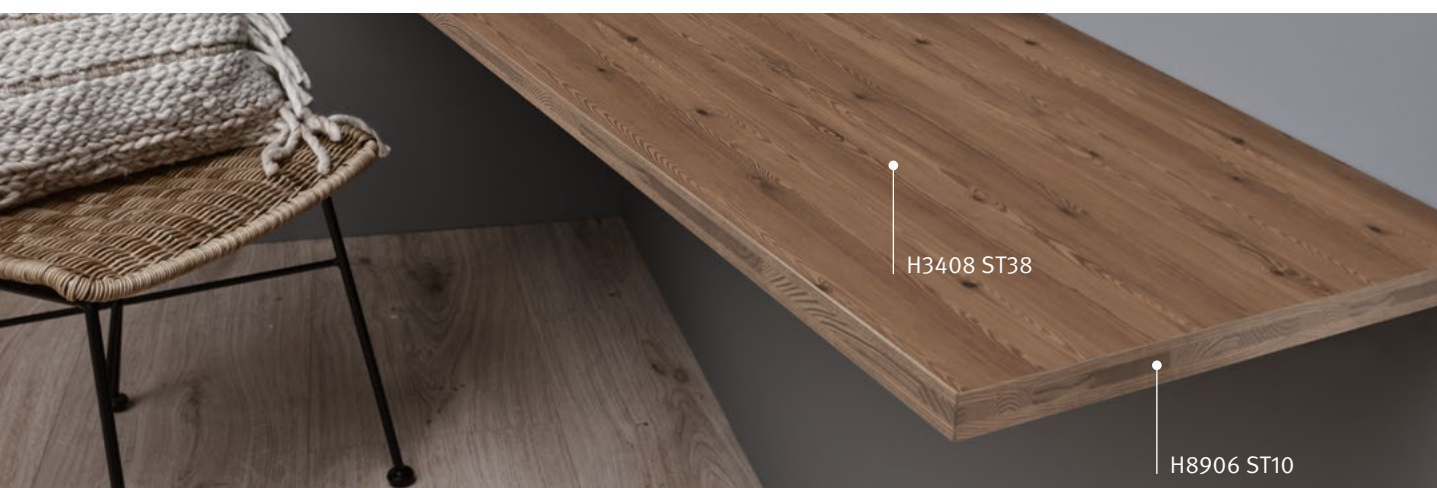

Modern designs

Our new ABS accent edging was inspired by international trend fairs.

Three-layered

With these special edge designs, the combination of edging and decorative laminated board looks like a solid three-layer particleboard. This edging also creates natural accents in combination with uni colours.

» Processing instructions and more information:

Dimensions

Width (mm)	23	43*
Thickness (mm)	1.0	1.5*
lm/roll	75 m	25 m*

* Only available for the decors H8106 STXT, H8915 ST10 and H8916 ST36.

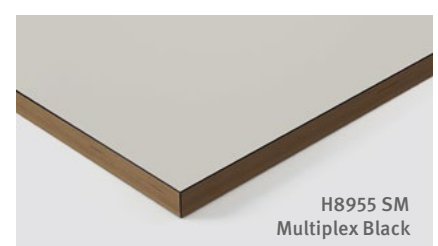

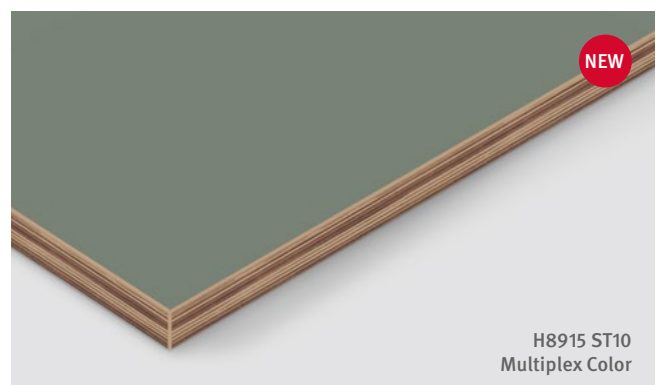

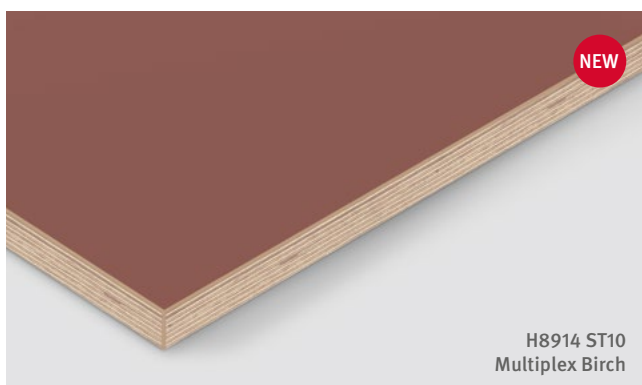

Brushed

Accent edging impressively conveys how the most amazing visual effect can be obtained with little effort.

Multiplex

Multiplex edging makes it possible to combine the look of a thin-coated multiplex board with the entire range of our uni colours.

EGGER ABS Endgrain Edging

ABS Endgrain Edging highlights the natural effect of the decors. It replicates the look of a log cut across its length with visible annular rings and, in combination with the matching long edge, creates a harmonious overall look.

YOUR BENEFITS

- Authentic end-grain effect thanks to the reproduction of a log cut across its length with visible annular rings
- Similar to nature's model

Dimensions

Width (mm)	23	43
Thickness (mm)	0.8	1.5
lm/roll	75 m	25 m

Decor overview

End-grain edging is offered to match decors with a synchronised texture ST28, ST32, ST37 and ST40.

Example: Q1385 RO matching to H1385 ST40 Decorative Board

Q1367 R0

EGGER as edging manufacturer

With the takeover of the plant in Gebze (TR) **1** in 2010, we succeeded, as the only wood-based material manufacturer to date, in taking a step in the world of plastic edging. Meanwhile, the plant in Gebze is considered the largest edging production plant in the world. In addition, our plant in Brilon (DE) **2** makes us the third largest edging manufacturer in the world.

Our focus is on wide-ranging and comprehensive capacity assurance. The use of the latest technologies enables timely and innovative product solutions.

■ Plants
■ Sales offices

As of 08/2025

This is where EGGER edging is made

EGGER plant in Gebze, Turkey

- First EGGER edging plant
- Supplier for distributors and industry
